B.Tech CSE graduate from MAIT (8.9 CGPA) with hands-on experience building and deploying production-grade full-stack applications using the MERN stack. Proven ability to ship real-world products — including an LMS with 150+ active users and Stripe payments, and a real-time chat platform with Socket.io. Looking to join a high-growth team as an SDE where I can build and scale real-world web systems.

🎓 EDUCATION

Maharaja Agrasen Institute of Technology <i>B.Tech in Computer Science and engineering(8.9 CGPA)</i>	2022 – 2026 Delhi
Siddhartha Public School <i>12th Standard (Percentage-93.2%)</i>	2021 – 2022 Delhi

💼 PROFESSIONAL EXPERIENCE

WNS Global Services Pvt. Ltd.(Capgemini) <i>Apprentice</i>	03/2026 – Present Gurgaon
- Contributed to an enterprise-scale production pipeline, writing and optimizing SQL queries and Python scripts to automate data workflows — reducing manual processing effort across cross-functional teams. - Worked in an Agile environment alongside engineers and analysts, gaining hands-on exposure to production-grade systems, structured data processing, and industry-standard development practices.	
Makkpress Technologies Pvt. Ltd. <i>Web Developer Intern</i>	06/2024 – 07/2024 Remote
- Developed responsive, SEO-friendly frontend components using HTML, CSS, and React.js, contributing to 3+ client websites and improving load times by up to 30%. - Integrated REST APIs, enhanced code reusability, and collaborated in a cross-functional team to deliver features that improved user engagement by 20%.	

📁 PROJECTS

Real-Time Chat Application
- Engineered a full-stack real-time messaging platform using the MERN stack and Socket.io, implementing instant one-to-one communication with typing indicators, online/offline presence tracking, and audio notifications for incoming messages. - Architected a secure, event-driven backend with JWT authentication, bcrypt.js password hashing, and optimized REST APIs — ensuring low-latency message delivery and a scalable WebSocket connection management system.
Learning Management System
- Engineered a full-stack LMS using the MERN stack, supporting 150+ users and 80+ video courses, featuring progress tracking, lecture management, role-based dashboards, and search & filter functionality. - Enabled admins to manage content and view real-time revenue; used ShadCN UI, Cloudinary, Stripe with webhooks for payments, JWT, bcrypt.js, and added Light/Dark mode support.
Sales Forecasting Tool
- Contributed to a production-grade forecasting tool used by business teams to make real-time sales predictions, directly supporting strategic planning decisions at an enterprise scale. - Helped streamline the sales planning process by contributing to an automated forecasting pipeline, cutting down manual analysis effort and enabling faster, data-backed business decisions.

🧠 SKILLS

Programming Languages: C, C++, JavaScript, Python

Frontend: React.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, Socket.io

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code

CS Fundamentals: DSA, OOP, OS, DBMS, Computer Networks

Problem Solving: Solved 350+ DSA problems across LeetCode, Code360, and GeeksforGeeks

🏆 POSITIONS OF RESPONSIBILITY

Sponsorship Coordinator - Udaan

- Led sponsorship outreach campaigns securing multiple local brand collaborations, achieving a 90% sponsor renewal rate through personalized communication strategies.

WNS CSR Activity

- Participated in CSR and social welfare initiatives at WNS Global Services alongside core responsibilities.
